📣 Zutopia Relaunch

The Zutopia P2P Marketplace App — Going Live Friday 24 April 2026

Dear Zutopia Community,

If you just caught the announcement on Zu FM — you already know the news.

If you missed it, here it is:

The Zutopia P2P Marketplace App will be officially relaunched on Friday, 24 April 2026.

On Friday morning, you'll be able to access the new Zutopia App in two ways:

- Directly from your **Zucoins Wallet**
- Online at **app.zutopia.com**

✅ Live Onboarding

Live Onboarding is the beginning of your Zutopia journey. It's designed to create a friendly, secure and easy user experience which will allow you to:

- Set up a new Zutopia account
- Comply with Stripe's KYC/AML mandatory obligations
- Add/delete your card details
- Create your own buy/sell listings
- Edit/delete your full or partial buy/sell listings

- Browse or search community buy/sell listings

✅ Live Trading

Once the Zutopia community satisfactorily completes the Live Onboarding processes above, our Zutopia CFO, **Riley Redford**, will immediately switch on the trading function with Stripe to "live mode".

Riley will be giving the Zutopia community plenty of notice when Live Trading is activated.

📱 One thing to do before Friday

If you've still got the old Zutopia app saved to your home screen — **delete it now**.

The new Zutopia App is a fresh install — keeping the old version will only cause problems with your Live Onboarding and unnecessary workload for the support team.

How to remove your old Zutopia App:

- Press and hold the old Zutopia icon on your home screen
- Tap **Delete Bookmark** (or **Remove App**, depending on your device)
- Confirm to remove it

Tomorrow we'll walk you through installing the fresh version from **app.zutopia.com** — it only takes a few seconds, so look out for that email!

📪 Keep an eye on your inbox

Over the next few days we'll be emailing you a short series of step-by-step guides so you can efficiently and easily:

- Delete your old Zutopia app
- Install a new Zutopia App with the latest version
- Connect your Zucoins Wallet to your new Zutopia App
- Complete Stripe's KYC/AML obligations
- Add/edit card details
- Create your first buy/sell listings
- Browse and search community buy/sell listings

Each email will be focused, visual, and designed so you can follow along on your phone in a couple of minutes.

Make sure that you read everything — this will avoid unnecessary time wasting with our support team. Zutopia now has a lot of new users to Live Onboard and we don't want any unnecessary delays.

Thanks for your patience — the Zutopia team is super excited and cannot wait to showcase the official version.

See you Friday 24 April 2026.

— The Zutopia Team
